

Vehicle figures	
Chassis	IVECO MAGIRUS EUROCARGO 150 E 25/30 W
Engine [HP]	220 kW / 299 HP / 185 kW / 250 HP
Wheelbase	3.240 mm
Cab, seats	All steel technology, 1+2
Gross weight	14.000 kg / 15.000 kg

GENERAL:

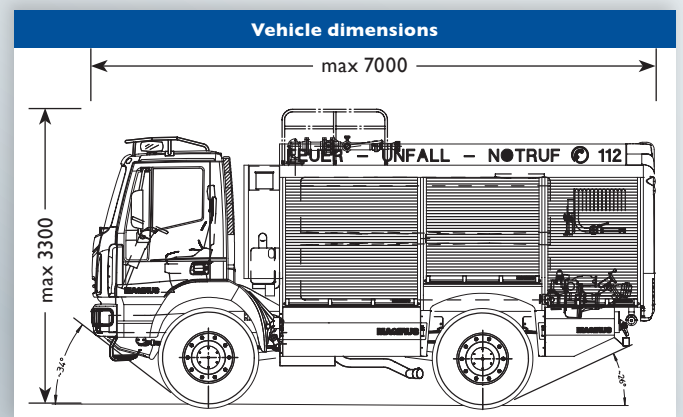

- Internal water tank for maximum equipment storage capacity
- MAGIRUS CAN-bus technology, FireCan compatible
- MAGIRUS HMI comfort control panels for very easy handling

BODYWORK:

- Pump capacity: 2.000 l/min at 10 bar
- Water tank volume: 4.000 l
- Technical module for chassis components between bodywork and cab

OPTIONS:

- Lighting: LED technology
- Warning system: integrated MAGIRUS M-Flash, LED technology
- Hygiene board, pull-out
- Water / foam monitor on the body roof
- Mobile water / foam monitor inside of the body
- Ground sweep and self protection nozzles on both axles
- Additional equipment for forest fire fighting
- Outfitting of empty spaces according to customer's requirements
- Engine and gearbox variants
- Twin tires
- Alternative warning and signalling systems
- Wide ranging additional equipments possible
- Body may be also mounted on any suitable chassis make
- Pressure foam proportioning system: electrical CaddiSys or mechanical FireDos
- Foam tank volume: 120 - 600 l
- Light mast
- Traffic warning lights LED
- Protection bar

ADVANTAGES / SPECIAL FEATURES:

- Generously dimensioned bodywork with 3 side roller shutters
- Lowered bodywork between the axles and behind the rear axle
- Optimum water tank assembly ensure no overloading of the rear axle
- Pump easy access from the rear for control and maintenance
- Large reserves of space in the body for local loading requirements and individual equipment
